ABOUT ME

Results-driven professional transitioning from leading high-impact operations at the United Nations Migration Agency (IOM) to a passionate career in front-end development. My extensive experience in team leadership, stakeholder engagement, and strategic coordination now fuels my approach to building intuitive and engaging user interfaces. With strong proficiency in React.js and JavaScript, demonstrated through over 20 successful front-end projects, I am adept at solving complex technical challenges and committed to continuous learning in the evolving tech landscape. I leverage this unique blend of operational excellence and technical skill to deliver innovative web solutions that enhance user experience and drive business value.

WORK EXPERIENCE

FRONTEND DEVELOPER (REACT) 2025

FREELANCER

Developed and delivered complete web applications for diverse clients, from concept to deployment, ensuring high-quality, responsive, and user-centric designs.

Utilized a robust tech stack including React.js, Next.js, Vite, JavaScript, Three.js, and Framer Motion to create dynamic, interactive, and visually appealing user interfaces.

Successfully integrated various APIs to enhance application functionality, enabling seamless data exchange and rich user experiences.

Managed project timelines, client communications, and technical requirements independently, consistently delivering projects on time and to satisfaction.

FRONTEND DEVELOPER 2024-2025

MASS CREATIVE LLC- CA, USA

Developed and contributed to web applications, focusing on responsive and user-centric designs.

Gained hands-on experience with React.js, Next.js, Vite, JavaScript for building dynamic user interfaces.

Integrated various APIs to enhance application functionality and data exchange.

Managed project tasks and client communication, developing foundational skills
